

PLEASE do NOT allow more cell phone usage in planes! This is a HORRIBLE idea. If you do allow such usage, I will be certain to patronize only airlines that do not allow it. People already use cell phones on buses, in crowded elevators, on light rail, and every place imaginable, usually with little or no regard to those around them. Merely the thought of being strapped into an assigned seat for hours while these same idiots pour out their drivel to the world is a traveler's nightmare. PLEASE think of those of us who are counting on you to derail this scenario before it becomes the norm.
